

With a large programme of international conferences in 2018, Eurosatory is a centre of reflection for a safer world.

3rd Hall Opening: the Hall 5B

The new hall 5B completes the indoor exhibition area. This hall will be dedicated mainly to security industry. It will showcase such technological clusters as intelligence, civil security, crisis management and people security, security of critical infrastructures and sensitive facilities and CBRNe. Moreover, the Discovery Village, business meetings and strategic consultancy will be installed there.

Live Demonstrations

Live demonstrations will move on an area at the north of hall 5B, close to the exhibiting halls making them accessible by foot: a guaranteed time saver! Institutional live demonstrations will complete Eurosatory Live Demonstrations week programme. Among them are French Army, French Police, Special Operations Command, National Gendarmerie Intervention Group, Research and Intervention Brigade and the Paris Fire Brigade.

Eurosatory LAB

For 2018 edition, Eurosatory has created an all-new start-up area, called Eurosatory LAB, dedicated to international start-ups in defence

EUROSATORY Overview: New Features of the Show in 2018

With more than 1,700 exhibitors and 57,000 visitors, Eurosatory is the leading international land and airland defence and security exhibition. It will be held from June 11 to 15, 2018 at the Paris Nord Villepinte Exhibition Centre. Following constantly the evolution and trends of the defence and security domain, in 2018, Eurosatory gets some changes in its organisation and in its showcase.

and security domain. Up to 70 most ground-breaking start-ups were selected to exhibit alongside 1,700 other companies. Internationally renowned keynote speakers will animate the LAB.

Eurosatory Conferences

With a large programme of international conferences in 2018, Eurosatory is a centre of reflection for a safer world! More

than 70 conferences will be organised with high-level panel of speakers including operational staff, manufacturers, media, experts, think tanks and high officials.

Institutional live demonstrations will complete Eurosatory Live Demonstrations week programme.

Business at Eurosatory

Eurosatory 2018 offers an all-new B2B meetings programme. To organise business meetings before the exhibition, exhibitors and visitors can use Vimeet, a platform created by Eurosatory's partner PROXIMUM Group. To increase networking during five days of the exhibition, all the attendees are invited to use Swapcard application, a connection tool for participants with common interests.

CBRN Event

In 2018, Eurosatory will present a new international thematic event dedicated to CBRN issues and organised with the participation of French and foreign Operations Officers, exhibitors from the defence and security domains, state representatives, experts and VIPs. This event completes already existing technology cluster and live demonstration, dedicated to the CBRN issues.

In 2018, Eurosatory will present a new international thematic event dedicated to CBRN issues

A New Technology Cluster: Intelligence

This cluster will be opened for the first time in 2018. It will showcase new products and services from the intelligence field and cover such topics as surveillance systems, cybersecurity, geospatial analysis, listening devices and more.

Security Measures

This year Eurosatory strengthens its security measures before and during the exhibition. All attendees should pre-register online with a unique email address, uploading an electronic copy of an identification document and a personal identity photo. The 2018 edition (11-15 June) will again increase exhibition's success and confirm Eurosatory as the major exhibition for the players of airland and land defence and security domain.
